Gavin Huntley-Fenner
Michael Parham
Sharon Wallin

Staff:

Terry L. Walker, Superintendent of Schools
John Fogarty, Assistant Superintendent, Business Services
Eamonn O'Donovan, Assistant Superintendent, Human Resources
Cassie Parham, Assistant Superintendent, Education Services
Lee Brooks, Executive Assistant to the Superintendent

6. REPORT OF CLOSED SESSION DISCUSSION / ACTION

Minutes

President Huntley-

Tony Ferruzzo, District consultant

Key audience members were also introduced:

Mike LeBlanc and Jeanette Justus, The Irvine Company
Patrick Strader, Five Point Communities
Dave Maggard, Chief of Police
Barry Curtis, Manager of Planning Services
Mike Elzy, Great Park CEO

High School #5

Safety:

Assistant Superintendent Fogarty reported that School Resource Officers (SROs) assigned to High School #5 would have the same authority as all other IUSD SROs, all being sworn officers.

Dwayne Mears, The Planning Center, provided a historical overview of Sites A and B, and reviewed issues of environmental concern.

O.C. Sheriff's Department representative Robert Beaver provided a comprehensive overview of the history and expansion plans for James A. Musick Jail, and referenced a memorandum of understanding (MOU) with the City of Lake Forest which limits the number of beds to 3,100 and prohibits maximum-security inmates. Residential development representatives confirmed full disclosure to buyers with no notable impact on home sales.

In response to questions regarding the impact of Site B's proximity to a large regional park, Irvine Police Chief Dave Maggard advised that an increase in crime is not anticipated and that the Irvine Police Department is committed to keeping our high schools safe, regardless of the location.

Review of Alternative Sites:

Assistant Superintendent Fogarty advised that, though not required, the District has agreed to initiate study of Site B which will likely require a comprehensive Project EIR (and comparison to Site A).

Traffic and Access:

District consultant Tony Ferruzzo provided a visual of home proximities to Sites A and B, and remarked on the community's positive reception of Northwood High School, similarly located on the residential outskirts of the city.

Bill Delo, IBI, reviewed pedestrian access and traffic volume forecasts, as well as ingress/egress from both sites. In response to the possibility of lowering the speed limit on major streets adjacent to high schools, the City has advised that speed limits are in accordance with state law, and include signs on street segments adjacent to schools designating a 25 mph speed limit when children are present.

Design:

Kevin Wilkeson, HMC Architects, provided an overview of the proposed solar design for the 5th high school and reported on the significant impacts of moving to an alternative site, including a delay in opening until 2017, and an estimated cost increase of \$20 million.

Adjacencies:

Director Lloyd Linton reviewed the known adjacencies to both sites and developer representatives discussed potential options for areas not yet determined. Proposed development plans for the Great Park were also reviewed.

Joint Use:

Legal Counsel Andreas Chialtis discussed the benefits and challenges of joint use options, including plans for funding and maintenance, as well as prioritization of participants.

Cost and Funding:

Adam Bauer, Fieldman Rolapp and Associates, explained the true-up calculation, stage and steps, and true-up initial calculations as defined in the Heritage Fields mitigation agreement.
